BLUFFTON SCHOOL of DANCE

8-12 YEAR & TEEN PROGRAMS

Once your child turns 8 years old, the amazing and diverse world of dance opens up to them. Imagine how fast they can improve and flourish when they are able to concentrate in the disciplines of their choice for a full hour each week at the perfect level for each individual! Plus, they can still enjoy class with their friends from school or aim to meet NEW friends - because dance friends are the BEST FRIENDS! So many options and opportunities lie ahead for these remarkable kids! Create your own dream schedule by combining any of the classes below:

Must be 8 (8-12 yr Classes) or 13 (Teen Classes) by January 31st for a January start; July 1st for a Summer start; October 1st for an August start

BALLET - Mesmerizing to watch, Ballet is the basis of all dance. Combining strength with grace and flexibility with performance, Ballet is the only "shortcut" to creating a great dancer! Taking just 2 Ballet each week can help your dancer skyrocket to the next level! Each dancer will be placed according to Spring evaluations or during their first class.

TAP - the Mathematician of dance, Tap is addicting and especially rewarding for our favorite perfectionists and musicians in life! Combining rhythm with smooth weight changes, you'll want to be sure to give your dancer a space to practice because once they start those feet will not stop shuffling! Each dancer will be placed according to Spring evaluations or during their first class.

JAZZ - Get your heart pumping in a high-speed and action-packed Jazz class. Power, Balance and Personality best describe this energetic style of dance. Jazz dancers go on to be amazing theater performers, dance team members and even cheerleaders due to the powerful technical background, performance quality and stamina it gives your dancer.

BALLROOM - Social dancing is a lost art in our children! Ballroom techniques give dancers confidence, poise, posture and GREAT musicality! Our 8 and up class is an hour of spicy latin, smooth waltzes and jumping jives where dancers energetically support each other while learning life-long skills!

ACRO - Dancers channel their inner Olympics-meets-Cirque dreams while they build muscles and power! This 8 and up class focuses on building the basics of strength, flexibility and CONFIDENCE to give dancers the tools they need to create a love of acro and tumbling. In this hour-long class, Acro dancers get to enjoy seeing their weekly improvements while dancing beside their friends. As skills improve, our Acro classes begin creating combinations that include jazz, contemporary, lyrical and ACRO of course!

HIPHOP - Pop, Lock, Break and Perform each week next to friends! HipHop Dancers will not stop moving in this one-hour class that introduces dancers to the basics of HipHop Technique and encourages them to find their Performance Personalities. Performing each week at the end of class, these kids will improve their choreography brains, their confidence and work off their energy from the long school day! Always a BSOD Favorite!

LYRICAL/CONTEMPORARY - Dancers delight in the emotional connections they feel in Lyrical and Contemporary dance. Moving to their favorite music, dancers not only work on perfecting techniques, but they also dive in to their own feelings and find a way to "speak" through their movements. These styles are always a favorite and send kids home less stressed, more confident and ready to take on the next day at school!

THEATRE DANCE - A Performer's Paradise, Theatre Dance gives kids the tools they need to audition for their next school or local theatre production! With a focus on coordination, confidence and performance tricks, Theatre Dance at BSOD is a high energy, quick moving class that helps driven kids get ahead in local theatre! Plus, you get to dance (and sing-along) to the very best of Broadway every week!
